EXPERT ADVICE

* * *

POUNDRIDGE NURSERIES, INC.

YOUR CARE . . .

IS

YOUR GUARANTEE

Your trees, plants or shrubs are living things and should be treated as such.

The Nursery from which they were purchased has produced strong and healthy specimens and should survive to give you pleasure for years to come, provided the proper care is taken in planting and maintenance.

A hole must be dug slightly larger and the same depth as the ball of earth taken with the plant. Peat moss and a good organic fertilizer should be mixed into the soil, both in the bottom and that which is to be back-filled. Placing the ball in the hole, the mixture should then be filled in around the ball firmly and watered well. Watering should be continued at least once if not twice a week until the plant has become established. A light application of fertilizer should be applied as the plant starts to grow to boost it along. Pruning and spraying are also essential in any maintenance program.

If complications arise which you cannot control, your Nursery will be only too glad to advise.

PRICING GUIDE

Prices in this catalogue include local delivery. These prices supersede all others and are subject to change without notice and availability at time of sale.

Prices quoted are for fine grade nursery stock.

SELECTED SPECIMEN PLANTS WILL BE
CHARGED ACCORDING TO THEIR
INDIVIDUAL VALUE.

All quotations subject to prior sale.

LANDSCAPE SERVICE

For suggestions and advice—there will be no charge.

Where simple sketches are required, there is no charge.

Where measurements and notes are required for a detailed plan and survey and a complete landscape plan is wanted, costs will be based on time required. If the resultant order justifies it, the cost can be deducted.

PLANTING

We can furnish experienced planting foremen and plantsmen, to plant the materials you order from us, at the current labor costs. The planting season starts as soon as the frost is out of the ground about mid-March and extends through December.

The minimum planting charge will be \$5.

TERMS

Cash—excepting established credit or satisfactory reference to which we will extend 30 days or where specific arrangements are made for longer terms.

Flowering and Ornamental Shrubs

All our shrubs are well grown bushy plants. Included among them are the old favorites as well as some of the newer varieties. *Prices quoted are for bare root flowering shrubs, unless otherwise specified. Ball and burlap or container grown at additional cost according to size of ball or container.*

TREE ROSES

Tree Roses lend the garden a touch of formality and few plants can equal the color of tree roses. Tree shaped roses are grown by budding into a tall straight stalk at a height of 36 inches. The bushy head usually produces more flowers and larger ones than the bush type of the same variety.
